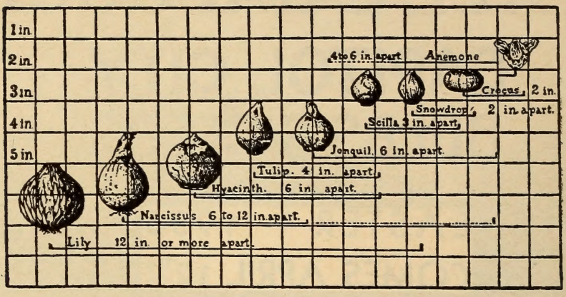
Bolgiano's Fall Bulbs

FOR 1935



HOW TO PLANT

OUTDOOR CULTURE—Plant the bulbs as soon after September as possible to enable the roots to make good growth before the cold weather sets in. They can, however, be planted from September until the ground becomes frozen. They require a moderately rich soil, or else apply Loma, Sheep Manure or Bone Meal. How far apart and how deep to plant the different bulbs is shown in the accompanying chart. When the ground freezes, cover with 3 or 4 inches of leaves or dry litter. Rake off after frost.

INDOOR CULTURE—Plant hyacinths, tulips and narcissus in a sandy soil. Give a good soaking after planting and water once or twice a week during the time the bulb makes root. After planting keep in a dark place in the house and keep a paper bag over the pot until the sprout is about three inches long. They may then be brought to the light and bag removed.

GROWING PAPER WHITE NARCISSUS IN WATER—Place a dozen bulbs in a shallow bowl, cover with small stones and keep filled with water. Place a few small pieces of charcoal in the bottom of the bowl to keep the water from fouling. Keep in a moderately temperate room. They require no care, no attention. They keep on growing and produce a beautiful flowering plant in about six weeks.

HOW TO ORDER

NAME AND ADDRESS should be written plainly both on the Order Blank and on the envelope enclosing the order. Names of seeds and bulbs should be written out in full in plain writing.

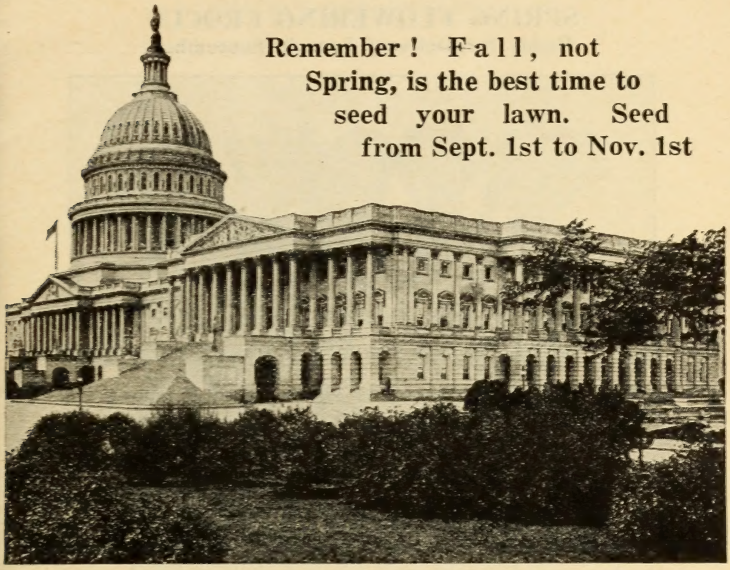
OUR TERMS are always cash with order. **MONEY** can be sent at our risk by Post Office or Express Money Order, New York or Chicago Draft, or by registered letter. We cannot hold ourselves responsible for cash sent loose in letters.

POSTAGE AND EXPRESS CHARGES—**ALL BULBS** will be sent by Mail charges prepaid, when ordered at single or dozen rates. At 100 rates and over add 5 per cent to the cost of the bulbs to cover carrying charges. Packets, Ounces, Quarter-Pounds or Pounds, ordered at list prices, will be sent FREE by mail or express. This DOES NOT APPLY to Beans, Corn, Peas, Field and Grass Seeds and Seed Potatoes, which will be sent at regular Parcel Post or Express Rates. Orders for greater than one pound lots will also be delivered at regular parcel post or express rates.

GIVE FULL DIRECTIONS always, whether shipment is made by freight, express or Parcel Post.

EXPRESS OR FREIGHT shipments should have the name of the station plainly given where different from the post office.

WE GUARANTEE our seeds, plants or bulbs to reach our customer in good condition. We give no warranty, expressed or implied, as to description, purity or productiveness, or any other matter of any seeds, plants or bulbs we send out, and will not be in any way responsible for the crop. If purchaser does not accept the goods on these terms they are to be returned at once, and the money that has been paid for same will be refunded.



Remember! Fall, not Spring, is the best time to seed your lawn. Seed from Sept. 1st to Nov. 1st

BOLGIANO'S "CAPITOL PARK" LAWN GRASS SEED

contains a well-balanced blend of various American and foreign fine bladed and deeply rooting grasses which has proved to produce the very best results under the varied conditions as to soil and climate met with in America.

BOLGIANO'S "CAPITOL PARK" LAWN GRASS SEED will give a green, smooth, velvety sod with a thick bottom and free from such varieties of common grasses as produce clumps and knots on the lawn, which so frequently spoil the desired smooth and deep effect. **Lb., 35c; 5 lbs., $1.50; 25 lbs., $6.50.**

BOLGIANO'S "SHADY NOOK" LAWN GRASS SEED

The Grass That Will Grow in Shady Places

It will quickly produce an abundant and even growth of beautiful green grass. The grasses used in making this special mixture are only those that are well adapted for growing in shade, and as it blends well with our Capitol Park Lawn Grass Seed it may be used on those portions of the lawn which are shaded by trees, buildings, etc., thus covering the whole area with a beautiful carpet of green. **Lb., 40c; 5 lbs., $1.75; 25 lbs., $7.75.**

BOLGIANO'S FAIR GREEN LAWN GRASS

Special Mixture with Creeping Bent

For a base there is still nothing superior to Kentucky Blue Grass, which remains evergreen all winter. Then there's a grass that resists the dry summer weather; one to grow quickly, giving an even sod in a short time; the old favorite white clover that most people want in abundance, and finally bent grass to give that dense undergrowth and velvety appearance so wanted by all. **Lb., 50c; 5 lbs., $2.25; 10 lbs., $4.25.**

Lōma The Lawn Tonic

It is quick acting. You can readily see on an established lawn a vast difference in ten days after applying Loma. Greener, healthier, thicker, more velvety. Apply on a new lawn three days before you sow your seed, the grass will come up more quickly and thicker than you have ever seen before. Full directions on every package. **Lb., 10c; 5 lbs., 45c; 10 lbs., 85c; 25 lbs., $1.50; 50 lbs., $2.50; 100 lbs., $4.00.**

White, blue, striped, yellow		$0.05	$0.35	$2.50

AUTUMN FLOWERING CROCUS

Plant Now—Bloom this Fall

They are excellent for planting in the grass and on the borders of shrubbery. Given a sheltered and sunny position in the rock-garden they add delightful color at a time when most rock-garden plants are out of bloom.

SPECIOSUS. Widely used in lawns, borders, and rock-gardens. Lively violet-blue, prettily veined, with orange-red anthers and light yellow throat. **5c each, 50c per doz.**

ZONATUS. Rose-lilac with yellow center and orange zone. **5c each, 50c per doz.**

FREESIA (For Indoor Blooming)

One of the most charming bulbs known for Winter-flowering and cut flowers. They grow well and bloom freely in an ordinary sitting room, if placed near a window and not kept too warm. They need not be kept in the dark as other bulbs. Plant 4 to 6 bulbs in a 5-inch pot, in light, rich soil.

IMPROVED PURITY. The finest and purest white variety yet introduced; of strong growth and very large flowers. **5c each, 45c doz., $3.00 per 100.**

RAINBOW MIXTURE. Clusters of yellow, blue, violet, mauve, pink and lavender, borne on graceful stems. **5c each, 50c doz., $4.00 per 100.**

SINGLE HYACINTHS

AMARYLLIS

Bolgiano's Giant Hybrids

Bulbs Ready October 20th

Amaryllis Bulbs

There is possibly no other bulbous plant that will give the amateur greater pleasure for indoor growing than these giant flowered beautiful Amaryllis. The United States Department of Agriculture here in Washington have been working to the improvement of the various strains for years, and it is a wonderful sight to see several thousands of these magnificent pot plants in bloom in the month of March here in the government greenhouses. Our bulbs produce vigorous stems with from four to six blooms of the most perfect form, ranging in color from pure white grounds, with varied markings of rose, red and crimson to the richest self colors, such as scarlet, crimson, bright red, cherry and almost maroon. They are easily grown. Pot up bulbs as soon as received in good garden loam, enrich with a handful of bone fertilizer. Cover only to the shoulder of the bulb, leaving the neck protruding. Keep in a temperature of about 50 to 60 degrees until the bulbs get a good start then place in a sunny window and give water regularly. Bulbs planted in October or November should come into bloom in March. After they have finished blooming set in a cool place until the bulbs become dormant. They may then be repotted the next Fall. Mixed colors only. **Jumbo Bulbs, suitable for planting in a 6-inch pot, 45c each, if to go by mail, 50c each.**
